

The Future of Mental Wellness

Now Offered Exclusively in Tucson at
Infinity Health and Wellness

EXOMIND™

Overall well-being encompasses more than physical appearance and fitness. Addressing the mind is an essential part of achieving balance and confidence. The breakthrough EXOMIND therapy is designed to treat symptoms of depression, helping patients regain control and improve their quality of life.

Mental wellness is the
#1 health concern in
North America*

1 in 5

People experience
emotional or behavioral
challenges each year*

Technology Backed By Cutting-Edge Science

“Patients describe Exomind as an easy-breezy, seamless and comfortable therapy.”

Dr. Michelle Dees / Psychiatrist Winter Garden, FL

FDA-cleared for the treatment of depression†, the EXOMIND’s patented ExoTMSTM technology comfortably stimulates key areas of the brain involved in emotional regulation, cognitive function, and self-control. By activating neural pathways, it helps restore healthy brain activity and enhances neural connectivity for improved mental wellness.

As a result, patients not only benefit from mood elevation but also feel more in control of their lives.
